| FI-E33300E2<br>SDP-X10K-NA | Variable speed control for 3-phase 230 Volt motors. The maximum motor current is 30 A. The fan speed can be manually set via the remote potentiometer. This potentiometer has a dry contact output to remotely start or stop the motor. The frequency inverter disables the motor in case motor overheating is detected via the motor ptc or thermal contacts. The supply voltage is 3-phase 230 Volt. |                   |                     |            |        |              |
