

⚠️ Consult the fan manufacturer for the correct wiring.
First connect the products, then download the firmware for this solution ID via [SenteraWeb](https://www.sentera.eu). The firmware will be automatically downloaded in the connected device(s).

Sentera products		External products	Parameters settings			
Article codes	Description	AC fan(s)	Article codes	Parameters	Values	Descriptions
TCMF8-302DM SIG-M-2 ADPT-3RJ-TD 2 x DTS-M-080 2 x DTS-MB-BK-ASM	Temperatures at the ceiling and floor level are measured by two temperature sensors with stainless steel probes 85 mm. The higher the difference between both temperatures, the higher the AC fan speed. The combined maximum speed per output is 3 A. There are two regulated outputs available. This destratification controller requires a separate LAN / WIFI gateway to download the required firmware.
