Article codes	Description	Induction Motor	Article codes	Parameters	Values	Descriptions
FI-E33300E6-19 SDP-M010-DC	Variable speed control for 3-phase 230 Volt motors. The maximum motor current Is 30 A. The fan speed can be manually set via the remote potentiometer. At zero position, the motor keeps on running at minimum speed. The frequency inverter disables the motor in case motor overheating is detected via the motor ptc or thermal contacts. The supply voltage is 3-phase 230 Volt. The frequency inverter has an IP66 protection against ingress of water and dirt.
